----------------------------------------	---------------------------------------------------------------------------------------------------

To provide guidance on the continued operation of the Commission during the current COVID-19 emergency, as a general matter, all hearings and other matters that would ordinarily require in-person attendance by parties or the public before the Commission will be conducted virtually until further order of the Commission. Further, so that participants are able to virtually interconnect in these proceedings, parties are directed to contact Randy Erskine, of our IT Department, at 803-896-5104, within a reasonable time before the proceedings begin, to make sure that they can be conducted smoothly. This includes making sure that parties have the proper software installed, as well as an adequate Internet connection and equipment.

These measures are intended to allow operations of the Commission to continue while minimizing any risk to the public, parties, attorneys, and Commission Staff and employees. Further, this policy is subject to review at any time as determined by the Commission.

This Order shall remain in full force and effect until further order of the Commission.
